Profile

AI Engineer and Data Scientist who builds production AI for HR and talent analytics — not demos. At Qkare I own real systems used by corporate customers: the dbt data layer that feeds dashboards, LangChain and LangGraph agents that answer questions over psychometric data, and FastAPI services that recommend KPIs and job competencies with validated JSON output.

What I do day to day: model data in SQL (109+ dbt models, native PostgreSQL row-level security, Superset), design LLM pipelines (RAG, semantic cache, prompt-injection guards), ship microservices behind a shared agent gateway, and measure quality with LLM-as-judge evals before release. I am comfortable taking a problem from messy requirements to Docker/Kubernetes deployment with CI, tenant isolation, and cost-aware inference. MSc in Information Technologies (Işık University). I also teach data science and machine learning at Miuul. Open to AI engineering, data engineering, and ML platform roles where the work ships to production.

Experience

AI Engineer Jun 2025 – Present
Qkare Istanbul

- Lead: dbt layer, production AI agents/advisors, gateway, and security across 8+ shipped systems.

Teaching Assistant Jan 2025 – Present
Miuul Remote

- Data science and machine learning lectures; project mentoring and evaluation.

Graduate Research Assistant Jan 2024 – Jun 2025
Işık University Istanbul

- Software labs; supervised data science and deep learning projects.

Research Data Scientist Jan 2024 – Jun 2025
Top4Honeychains

- Honey value-chain ETL, TensorFlow/scikit-learn models, REST API integrations.

Projects

Analytics Platform Nov 2025 – May 2026
Qkare — End-to-end HR analytics: PostgreSQL FDW, 109 dbt models, 56 marts, 13 AI precompute tables, native RLS, Superset. Lead: dbt layer.

Analyzer Platform Apr 2025 – May 2026
Qkare — LangChain ReAct agent on psychometric marts; 4-layer security, JWT+RLS, Langfuse. Lead: security and config bootstrap.

Coach Platform Sep 2025 – Nov 2025
Qkare — Multi-agent coaching (LangGraph, POML, OpenAI Realtime). Referee Agent (LLM-as-judge), voice stack, eval tooling.

Skills Advisor Aug 2025 – May 2026
Qkare — 12 competency dimensions from closed dictionary; LangChain or DSPy ensemble. Primary engineer.

KPI Advisor Apr 2026 – May 2026
Qkare — SMART KPIs via APQC PCF; lexical retrieval, Golden Dataset, LLM-as-judge pipeline. Primary engineer.

Agent API Gateway Apr 2026 – May 2026
Qkare — FastAPI monorepo, unified invoke API, JWT, per-agent Docker/CI. Platform lead.

QKare AI Assistant	Jul 2025
Qkare — Corporate chatbot: rule, semantic cache (FAISS/Milvus), RAG, LLM; hybrid security. Sole author.	
Behavioral Clustering R&D	Aug 2025
Qkare — K-Means, DBSCAN, GMM; PCA/t-SNE; fed Analytics marts. Sole author.	
CVAnalyzerAI	2025
MCP resume analysis (FastAPI, DSPy, ANTLR). github.com/EceDalpolat/cvAnalyzerAI	
TOP4HONEYCHAINS	2024–2025
Honey traceability ML, REST APIs, time-series forecasting.	
Marketing Campaign Prediction	
Bank campaign model: SMOTE, XGBoost, Streamlit.	
Pollen Classification	
CNN classifier, 90%+ accuracy; data augmentation.	
Antenna Behaviour Analysis	
DeepLabCut keypoint tracking; movement analysis.	
Student Success Analysis	
Random Forest on academic features; Tkinter GUI.	
Skills	

AI/LLM: LangChain, LangGraph, DSPy, RAG, OpenAI API, Pydantic, LLM-as-judge
Data: dbt Core, PostgreSQL, Apache Superset, Pandas, SQL
Backend: FastAPI, httpx, WebSocket, JWT, MCP, REST
Infra: Docker, Kubernetes, GitLab CI/CD, Redis, OpenTelemetry, Langfuse
Languages: Python, SQL, JavaScript, Java, C#

Education

MSc Information Technologies	2024 – Present
Işık University — GPA 3.57. Thesis: ML in beekeeping and honey extraction.	
BSc Software Engineering	2018 – 2023
Kırklareli University — GPA 2.71	

Certificates

Miuul Data Scientist Bootcamp; Miuul Machine Learning; Miuul Generative AI; Udemy LangChain/RAG; BTK SQL; Huawei HCCDA-AI
Turkish (native) | English (B2 - C1)
